Many of you were wanting to know a little bit more about the concoction I toned Debra's hair with. After a little lightening I was rinsing her out and saw it was a little brassy, which normally would freak me out, but now I have a secret weapon. I went through my fair share of brassiness earlier ...

Xerography or electrophotography is a dry photocopying technique. Its fundamental principle was invented by American physicist Chester Carlson and based on Hungarian physicist Pál Selényi's publications. Chester Carlson applied for and was awarded U.S. Patent 2,297,691 on October 6, 1942. The technique was originally called electrophotography. It was later renamed xerography "from the Greek ...

### **Phaser 7800 The graphic arts gold standard. - office.xerox.com**

Laser printing is an electrostatic digital printing process. It produces high-quality text and graphics (and moderate-quality photographs) by repeatedly passing a laser beam back and forth over a negatively charged cylinder called a "drum" to define a differentially charged image. The drum then selectively collects electrically charged powdered ink, and transfers the image to paper, which ...
