Situation awareness can be defined as the crew's knowledge of both the internal and external states of the aircraft, as well as the environment in which it is operating.

Summary of the various definitions of Situation Awareness

Self-awareness is the capacity for introspection and the ability to recognize oneself as an individual separate from the environment and other individuals. It is not to be confused with consciousness in the sense of qualia. While consciousness is being aware of one's environment and body and lifestyle, self-awareness is the recognition of that awareness.
