Over the years the Portable Document Format has evolved enormously. This page lists all the major releases, starting from PDF 1.0 which was released in 1993.

PDF versions | The scope of each PDF version

The human back is the large posterior area of the human body, rising from the top of the buttocks to the back of the neck and the shoulders. It is the surface of the body opposite from the chest. The vertebral column runs the length of the back and creates a central area of recession. The breadth of the back is created by the shoulders at the top and the pelvis at the bottom.
