A radio-controlled aircraft (often called RC aircraft or RC plane) is a small flying machine that is controlled remotely by an operator on the ground using a hand-held radio transmitter. The transmitter communicates with a receiver within the craft that sends signals to servomechanisms (servos) which move the control surfaces based on the position of joysticks on the transmitter.

The term "trailer" came from the fact that the original, smaller versions could be pulled behind a vehicle. Although the name evolved to "mobile home", the term lost much of its meaning as once a home was moved into a park it was very likely to stay forever, becoming part of the mobile home park community.
