SAFEGUARDING TAXPAYER DATA 5 Use Security Software â€¢ A fundamental step to data security is the installation and use of security software on your computers.

Safeguarding Taxpayer Data - Internal Revenue Service

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi.. Network computer devices that originate, route and terminate the ...
