II.

Case Studies in Project, Program, and Organizational

A process is a series of actions directed toward a particular result. Project management process groups progress from initiating activities to planning activities, executing activities, monitoring and controlling activities, and closing activities. Initiating processes include defining and authorizing a project or project phase.

THE PROJECT MANAGEMENT PROCESS GROUPS: A CASE STUDY

This case study has been produced by Lancaster University MSc E-Business and Innovation students for the BCS, focusing on two successful, complex, IT projects, which won BCS Awards in 2005.

Project Failure Case Studies and Suggestion

The case study is the main vehicle to do this. Decision-oriented case studies—the type developed and used at GSFC—are structured and written from the viewpoint of a key player, the protagonist. They are framed around information available to the protagonist at the time of the event.

ethodology - NASA

A case study is a story about something unique, special, or interesting—stories can be about individuals, organizations, processes, programs, neighborhoods, institutions, and even events. 1 The case study gives the story behind the result by capturing what happened
