Prevalence. In the political philosophy of multiculturalism, ideas are focused on the ways in which societies are either believed to or should, respond to cultural and religious differences. It is often associated with "identity politics", "the politics of difference", and "the politics of recognition". It is also a matter of economic interests and political power.

Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.
