608 Disclosure [R-11.2013] To obtain a valid patent, a patent application as filed must contain a full and clear disclosure of the invention in the manner prescribed by 35 U.S.C. 112(a). The requirement for an adequate disclosure ensures that the public receives something in return for the exclusionary rights that are granted to the inventor by a patent.

A Guide to Authors of Papers in Acta Physica Polonica A

A pigment is a material that changes the color of reflected or transmitted light as the result of wavelength-selective absorption.This physical process differs from fluorescence, phosphorescence, and other forms of luminescence, in which a material emits light.Most materials selectively absorb certain wavelengths of light. Materials that humans have chosen and developed for use as pigments ...
