Lookup Tables. Graylog 2.3 introduced the lookup tables feature. It allows you to lookup/map/translate message field values into new values and write them into new message fields or overwrite existing fields.

### **Lookup Tables - Graylog 2.4.6 documentation**

CLIPS is a public domain software tool for building expert systems. The name is an acronym for "C Language Integrated Production System." The syntax and name was inspired by Charles Forgy's OPS ("Official Production System," although there was nothing really official about it). The first versions of CLIPS were developed starting in 1985 at NASA-Johnson Space Center (as an alternative for ...
