Menger set out to elucidate the precise nature of economic value, and root economics firmly in the real-world actions of individual human beings. For this reason, Carl Menger (1840-1921) was the founder of the Austrian School of economics. It is the book that Mises said turned him into a real economist. What's striking is how nearly a century and a half later, the book still retains its incredible power, both in its prose and its relentless logic.
