Electronic music is music that employs electronic musical instruments, digital instruments and circuitry-based music technology. In general, a distinction can be made between sound produced using electromechanical means (electroacoustic music), and that produced using electronics only. [1]

Electronic music - Wikipedia

Hi, I'm mainly interested in producing electronic music (breakcore, dubstep and so on). I have a decent knowledge of music theory and I can create not-so-bad drum patterns, but when it comes to create or manipulate a sound (for a drum kit, or a synth) I just procede changing parameters randomly, applying effects and so on.
