Elements of a Theory of Human Rights Amartya Sen

Classical elements typically refer to the concepts in ancient Greece of earth, water, air, fire, and aether, which were proposed to explain the nature and complexity of all matter in terms of simpler substances. Ancient cultures in Babylonia, Japan, Tibet, and India had similar lists, sometimes referring in local languages to "air" as "wind" and the fifth element as "void".

Classical element - Wikipedia

According to Wu Xing theory, the structure of the cosmos mirrors the five phases. Each phase has a complex series of associations with different aspects of nature, as can be seen in the following table.

The term ∇ tipping point ∇ • commonly refers to a critical threshold at which a tiny perturbation can qualitatively alter the state or development of a system. Here we introduce the term ∇ tipping element ∇ • to describe large-scale components of the Earth system that may pass a tipping point. We critically evaluate potential policy-relevant tipping elements in the climate system under ...
