Training classifiers with datasets which suffer of imbalanced class distributions is an important problem in data mining. This issue occurs when the number of examples representing the class of interest is much lower than the ones of the other classes.

An insight into classification with imbalanced data

The buying decision process is the decision-making process used by consumers regarding market transactions before, during, and after the purchase of a good or service. It can be seen as a particular form of a cost-benefit analysis in the presence of multiple alternatives.. Common examples include shopping and deciding what to eat. Decision-making is a psychological construct.

Buyer decision process - Wikipedia

Retailers have always worked to establish close relationships with customers through the retail marketing mix. Thus, the literature has a long tradition of testing the effects of various instruments on retail patronage.

Testing Retail Marketing-Mix Effects on Patronage: A Meta

Introduction. In today's knowledge society, a firm understanding of the interplay between the management of knowledge and learning is strategically important for creating and maintaining effective learning processes in a large variety of non-traditional learning situations (Lytras et al., 2005).

Journal of Knowledge Management Practice, - TLAINC

Introduction. Individual decision-making about consumption has been the subject of many theories and approaches. In this paper, we are interested to propose some steps to include consumer decision making and behaviour in formal models, trying to do this in a more realistic way than the neoclassical theory.

Consumer decision rules for agent-based models

The March 1974 issue of HBR carried an article that reported on Phases I and II of a project sponsored by the Marketing Science Institute and the Harvard Business School.

Many of you have probably heard of the “alkaline diet”. There are a few different versions of the acid-alkaline theory circulating the internet, but the basic claim is that the foods we eat leave behind an “ash” after they are metabolized, and this ash can be acid or alkaline (alkaline meaning more basic on the pH scale). According to the theory, it is in our best interest to make sure ...

The Acid-Alkaline Myth: Part 1 | Chris Kresser

The study and survey of financial inclusion is useful for both policy makers and bank service providers to make strategic decisions. This dissertation attempts to provide a snap shot of the extent of financial inclusion i.e. the level and expansion

A Comparative Analysis of Financial Inclusion: A Study of

ABSTRACT. This paper offers a critical review of the theoretical literature on the relationship between the production of scientific knowledge and its use in policy formulation and implementation.

Use of research results in policy decision-making

Well, there ain't no goin' back when your foot of pride come down Ain't no goin' back - Bob Dylan The latest on Michael Ruppert is that he's left Venezuela after four months which saw "sudden drops in blood pressure, blood sugar crashes, dizziness, weakness, paresthesia of lips and fingers, small kidney stones, heavy calcification of the urinary tract and prostate, cloudy urine and chronic ...
