An Introduction to Neural Networks

The CAN fundamentals seminar takes place on one day. The seminar can be booked as an individual training course or alternatively as a module within a multiple day training course for CANoe or CANalyzer. During the seminar you will get a general introduction to serial bus systems in the motor vehicle and a basic knowledge of CAN (Controller Area Network).

Vector CAN Training

If you want to learn about vector network analyzers & calibration theory & VNA measurement practices in the best way possible, GET THIS BOOK. The quality of the print is more phenomenal than any other textbook I have read in my life.
