Dark matter is a hypothetical form of matter that is thought to account for approximately 85% of the matter in the universe, and about a quarter of its total energy density. The majority of dark matter is thought to be non-baryonic in nature, possibly being composed of some as-yet undiscovered subatomic particles. Its presence is implied in a variety of astrophysical observations, including ...

Hollingsworth v. Perry refers to a series of United States federal court cases that legalized same-sex marriage in the State of California. The case began in 2009 in the U.S. District Court for the Northern District of California, which found that banning same-sex marriage violates equal protection under the law. This decision overturned ballot initiative Proposition 8, which had banned same ...

A good understanding of Colorado's physical history and rocks requires a feel for large-scale geodynamics. This groundwork article attempts to provide just that context while supporting the photojournals and other groundwork articles that draw on such ideas.. Most importantly, this article seeks to provide a basis for appreciating if not answering the \$64,000 geo-question about Colorado:
