With our breakthrough 24x Rapid Learning System™ of smart teaching and rich media, you can now finally gain a powerful learning edge over others who are still struggling with static textbooks and online freebies. Catch up and excel in class with the host of tightly integrated learning modules, designed specifically for today's web and video savvy students and supported by a team of teaching ...

### **Rapid Learning Center - Anatomy and Physiology**

The human body is the structure of a human being. It is composed of many different types of cells that together create tissues and subsequently organ systems. They ensure homeostasis and the viability of the human body.. It comprises a head, neck, trunk (which includes the thorax and abdomen), arms and hands, legs and feet. The study of the human body involves anatomy, physiology, histology and ...

### **Human body - Wikipedia**

Sex differences in human physiology are distinctions of physiological characteristics associated with either male or female humans. These can be of several types, including direct and indirect. Direct being the direct result of differences prescribed by the Y-chromosome, and indirect being a characteristic influenced indirectly (e.g. hormonally) by the Y-chromosome.

### **Sex differences in human physiology - Wikipedia**

Book Description: Human Anatomy and Physiology is designed for the two-semester anatomy and physiology course taken by life science and allied health students. The textbook follows the scope and sequence of most Human Anatomy and Physiology courses, and its coverage and organization were informed by hundreds of instructors who teach the course.

### **Anatomy and Physiology " Open Textbook**

Anatomy and Physiology I is the first of a two-course sequence examining the terminology, structure, function, and interdependence of the human body systems.

### **NSCI280 Anatomy And Physiology I Course - University of**

Anatomy Physiology online course, self-paced. This online anatomy physiology class is fully accredited for CEUs upon completion. College credit hours can be awarded upon completion of the Anatomy Physiology online course.

### **Anatomy & Physiology Course Online - Accredited Class**

The muscular system is the biological system of humans that produces movement. The muscular system, in vertebrates, is controlled through the nervous system, although some muscles, like cardiac muscle, can be completely autonomous.
