Technocracy is a proposed system of governance where decision-makers are selected on the basis of their expertise in their areas of responsibility, particularly scientific knowledge. This system explicitly contrasts with the notion that elected representatives should be the primary decision-makers in government, though it does not necessarily imply eliminating elected representatives.

To gain cost advantage and market share, many firms implemented various initiatives such as outsourced manufacturing and product variety. These initiatives are effective in a stable environment, but they could make a supply chain more vulnerable to various types of disruptions caused by uncertain economic cycles,

consumer demands, and natural and man-made disasters.

We view Donald Trump's ascendancy to the Presidency of the U.S. as confirmation of a political and economic paradigm shift that started with Brexit but is likely to continue for the foreseeable future, including elections across Europe in 2017. Consistent with this view, we believe that there are four major potentially secular changes that all investment professionals must consider: fiscal ...
