

international cosmetic ingredient dictionary pdf

The International Nomenclature of Cosmetic Ingredients, abbreviated INCI, is a system of names for waxes, oils, pigments, chemicals, and other ingredients of soaps, cosmetics, and the like, based on scientific names and other Latin and English words. INCI names often differ greatly from systematic chemical nomenclature or from more common trivial names

International Nomenclature of Cosmetic Ingredients - Wikipedia

INCI names (International Nomenclature Cosmetic Ingredient) are systematic names internationally recognized to identify cosmetic ingredients. They are developed by the International Nomenclature Committee (INC) and published in the International Cosmetic Ingredient Dictionary and Handbook.. Oversight for the INCI program is provided by the Personal Care Products Council as part of its mission ...

What is INCI? | Personal Care Products Council

The Personal Care Products Council is committed to working with national governments, trade associations, and other organizations to ensure that the Dictionary provides the world community with accurate, transparent, and harmonized nomenclature. The widespread use and international recognition of INCI names can be attributed to the use of uniform, science-based ingredient names that minimize ...

Seed oils have been used for centuries by rural communities as food, medicine, for cosmetic applications and as fuel. Recently there has been a renewed interest in these non-timber forest products (NTFPs) specifically for use in cosmetic formulations.

African seed oils of commercial importance – Cosmetic

Mineral oil is used in a variety of industrial/mechanical capacities as a non-conductive coolant or thermal fluid in electric components as it does not conduct electricity and functions to displace air and water. Some examples are in transformers, where it is known as transformer oil, and in high-voltage switchgear, where mineral oil is used as an insulator and as a coolant to disperse ...

Mineral oil - Wikipedia

A. A4 (size) A common ISO A-size of about 8-1/4 by 11-3/4 inches or 210 x 297mm. For all sizes see International Paper and Board Sizes. Abaca A fiber also known as manila hemp or manila fiber, prepared from the outer sheath of the stems of manila.
