Introduction. Information and communication technology is a principal driver in our Information Society [] of which the immediate consequences for educational practice can be observed []. Following this evolution, several authors [3,4] have mentioned the need to shift from the traditional classroom setting, where the student is seen as a passive consumer of educational knowledge, to a classroom ...

Reciprocal teaching refers to an instructional activity in which students become the teacher in small group

reading sessions. Teachers model, then help students learn to guide group discussions using four strategies: summarizing, question generating, clarifying, and predicting.
