Investment Banking Fairness Opinions - Mergers & Inquisitions

In finance, valuation is the process of determining the present value (PV) of an asset. Valuations can be done on assets (for example, investments in marketable securities such as stocks, options, business enterprises, or intangible assets such as patents and trademarks) or on liabilities (e.g., bonds issued by a company). Valuations are needed for many reasons such as investment analysis ...

Valuation (finance) - Wikipedia

Investment Banking Modelling Test. Investment banks will often require top-notch Excel modelling skills when they hire analysts or associates from other investment banks or from other professionals in the finance sector (i.e. accountants and consultants).

How to answer Why investment banking? | AskIvy

A company can be separated into its operating businesses or assets and its non-operating assets. Operating assets are typically the principal sources of a company's revenues, cash flow, and income.
