Civil Engineering MCQ Practice Tests - ObjectiveBooks

Drip irrigation is the most efficient method of irrigating. What that means is much less wasted water! It is easy to install, easy to design, can be very...

Drip Irrigation Design Guidelines « Basics of Measurements

Civil Engineering questions and answers with explanation for interview, competitive examination and entrance test. Fully solved examples with detailed answer description, explanation are given and it would be easy to understand.

Civil Engineering Questions and Answers - Aptitude

A qanat (Persian: قنات) is a gently sloping underground channel to transport water from an aquifer or water well to surface for irrigation and drinking. This is an old system of water supply from a deep well with a series of vertical access shafts. The qanats still create a reliable supply of water for human settlements and irrigation in hot, arid, and semi-arid climates.

Qanat - Wikipedia

pdf995 is the fast, affordable way to create professional-quality documents in the popular PDF file format. (Win 95, 98, 2000 and Me, NT 4.0 and XP).

Desalination is a process that takes away mineral components from saline water. More generally, desalination refers to the removal of salts and minerals from a target substance, as in soil desalination, which is an issue for agriculture. Saltwater is desalinated to produce water suitable for human consumption or irrigation. One by-product of desalination is salt.

We, all of us, are rapidly running out of time. If the biosphere is not soon freed from the ongoing global climate engineering assault, there will very soon be nothing left to salvage of our once thriving planet.. Photo credit: Oregon Air National Guard. If we are to have any chance of altering our current course in time to make a difference, the effort will take all of us.
