1. Performance management and employee engagement. Performance management is a critical aspect of organizational effectiveness (Cardy, 2004). Because it is the key process through which work is accomplished, it is considered the "Achilles Heel" of managing human capital (Pulakos, 2009) and should therefore be a top priority of managers (Lawler, 2008).

Perception (from the Latin perceptio) is the organization, identification, and interpretation of sensory information in order to represent and understand the presented information, or the environment.. All perception involves signals that go through the nervous system, which in turn result from physical or chemical stimulation of the sensory system. For example, vision involves light striking ...
