

leak detection pipeline management pdf

Pipeline transport is the long-distance transportation of a liquid or gas through a system of pipes—a pipeline—typically to a market area for consumption. The latest data from 2014 gives a total of slightly less than 2,175,000 miles (3,500,000 km) of pipeline in 120 countries of the world. The United States had 65%, Russia had 8%, and Canada had 3%, thus 75% of all pipeline were in these ...

NCCER has been providing pipeline resources for over fifteen years and prides itself on safety, quality and results. Contact NCCER today to start using this comprehensive training and qualification system.. Looking for a specific covered task?

Pipeline Program (New)

The Prudhoe Bay oil spill (2006 Alaskan oil spill) was an oil spill that was discovered on March 2, 2006 at a pipeline owned by BP Exploration, Alaska (BPXA) in western Prudhoe Bay, Alaska. Initial estimates of the five-day leak said that up to 267,000 US gallons (6,400 bbl) were spilled over 1.9 acres (7,700 m²), making it the largest oil spill on Alaska's north slope to date.
