Learning how to learn: a process we all engage in throughout our lives, but no single method of learning guarantees success. This free course, Learning how to learn, aims to make the process of learning much more explicit by inviting you to apply various ideas and activities to your own study as a way of increasing your awareness of your own learning.

Learning how to learn - OpenLearn - Open University - LDT101_3

#1 Introduction " How people learn p. 4 God was an example of an innate idea. He recognized that the body could be appreciated and studied as a zoological machine, while the mind was separate and free from the body. He was one of the first to define precisely the ability of the environment and the mind to influence and initiate behavior.

#1 Introduction " How people learn - Stanford University

learn: that students need to develop flexible understanding, including both basic factual and conceptual knowledge, and must know how to use that knowledge critically.
