

### **management control systems anthony pdf**

A management control system (MCS) is a system which gathers and uses information to evaluate the performance of different organizational resources like human, physical, financial and also the organization as a whole in light of the organizational strategies pursued.. Management control system influences the behavior of organizational resources to implement organizational strategies.

### **Management control system - Wikipedia**

There has been very little explicit theoretical and empirical research on the concept of management control systems (MCS) as a package despite the existence of the idea in management accounting literature for decades.

### **Management control systems as a package – Opportunities**

Control, or controlling, is one of the managerial functions like planning, organizing, staffing and directing. It is an important function because it helps to check the errors and to take the corrective action so that deviation from standards are minimized and stated goals of the organization are achieved in a desired manner.
