Managerial Accounting: Tools for Business Decision Making

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Large sections of Part II have been updated, in particular chapter 4.

GUIDELINES FOR THE DESIGN OF AGRICULTURAL INVESTMENT PROJECTS

1. Introduction. This paper provides an overview of the research on management accounting and control which has used a contingent perspective. It starts from my 1980 review of the topic (Otley, 1980) and seeks to bring this up to the present day. 1 However, there are a number of features that require clarification to define the scope of this review. . First, the topic has broadened in its ...
