Video game music is the soundtrack that accompanies video games. Early video game music was once limited to simple melodies of early sound synthesizer technology. These limitations inspired the style of music known as chiptunes, which combines simple melodic styles with more complex patterns or traditional music styles, and became the most popular sound of the first video games.

A music tracker (short version tracker) is a type of music sequencer software for creating music. The music is represented as discrete musical notes positioned in several channels at discrete chronological positions on a vertical timeline. A music tracker's user interface is usually number based. Notes, parameter changes, effects and other commands are entered with the keyboard into a grid of ...
