Operations research, or operational research in British usage, is a discipline that deals with the application of advanced analytical methods to help make better decisions. Further, the term 'operational analysis' is used in the British (and some British Commonwealth) military as an intrinsic part of capability development, management and assurance.

Operations research - Wikipedia

DevOps is an approach to lean and agile software delivery that promotes closer collaboration between lines of business, development and IT operations. Historically, development and operations, and even testing, have been siloed operations. DevOps brings them together to improve agility and reduce ...
