family rules. She makes few demands for household responsibility and or- derly behavior. She presents herself to the child as a resource for him to use ... gards the preservation of order and traditional structure as a highly valued end in itself. She does not encourage verbal give and take, believing that the

### **EFFECTS OF AUTHORITATIVE PARENTAL CONTROL ON CHILD BEHAVIOR.**

We use the concept of family social capital to conceptualize parent-child interactions, family structures, and family social context. Thus, we focus on the structural relations that give rise to social resources available for parents to invest in their children, and the different ways in which parents invest those resources (Coleman 1988).
