The Global Positioning System (GPS), originally Navstar GPS, is a satellite-based radionavigation system owned by the United States government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS ...

Global Positioning System - Wikipedia

1.. IntroductionAutism is a developmental disorder characterized by difficulties with social interaction, social communication and an unusually restricted range of behaviours and interests (Frith, 2003).A diagnosis of autism also requires a clinically significant delay in language development before the age of 3 years.
