Moving towards the ATM networks of the future Matching network performance and application needs. 2 ... â€¢ Mission critical voice Communication â€¢ Networked communications â€¢ End-to-end IP Intelligent ... traffic re-routing if needed to ensure performance

Moving towards the ATM networks of the future

Furthermore, in a mission/life-critical scenario, it is desirable to perform fault reconi-figuration quickly so that system func tion is suspended for only seconds.

Efficient Incremental Rerouting for Fault Reconfiguration in

mission-critical applications such as VPN networks carrying delay sensitive traffic. Thus, the restoration techniques are enhanced via MPLS to bypass the failed equipment before routing convergence.
