

### **scaling networks lab manual pdf**

Scaling Networks Companion Guide is the official supplemental textbook for the Scaling Networks course in the Cisco CCNA Academy. This course describes the architecture, components, and operations of routers and switches in a large and complex network. You will learn how to configure routers and switches for advanced functionality.

A not always very easy to read, but practical copy & paste format has been chosen throughout this manual. In this format all commands are represented in code boxes, where the comments are given in blue color. To save space, often several commands are concatenated on one line and separated with a semicolon ';
