

service business accounting cycle pdf

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Accounting - Wikipedia

Microsoft Office Accounting (formerly Small Business Accounting) is a discontinued accounting software application from Microsoft targeted towards small businesses that had between 1 and 25 employees. The last version, Microsoft Office Accounting 2009, was available in both Express and Professional editions. It included several new features, including tax preparation add-ins, 20 new reports ...
