### **Spacecraft Structures - NASA**

We begin the process with a "blank sheet of paper" and carry the reader through a preliminary mission design covering all system aspects: orbit and constellation design, mission geometry, launch vehicle selection, and design of the spacecraft, payload, ground segment, and operations.

### **Space Mission Analysis and Design (SMAD) - 3rd Ed. [James**

This third edition of "Space Mission Analysis and Design", known as SMAD to its many friends, carries on the tradition of the first two editions of providing a practical handbook for space mission engineering -the process of defining mission parameters and refining requirements to meet the often fuzzy objectives of a space mission at minimum cost and risk.
