Common distributions with typical uses and canonical link functions Distribution Support of distribution
Typical uses Link name Link function, = Mean function

Generalized linear model - Wikipedia

The Heckman correction (the two-stage method, Heckman's lambda or the Heckit method) is any of a number of related statistical methods developed by James Heckman at the University of Chicago in 1976 to 1979 which allow the researcher to correct for selection bias. Selection bias problems are endemic to applied econometric problems, which make Heckman's original technique, and subsequent ...
