Earthbag construction is an inexpensive method using mostly local soil to create structures which are both strong and can be quickly built.. It is a natural building technique developed from historic military bunker construction techniques and temporary flood-control dike building methods.

### **Earthbag construction - Wikipedia**

This graph displays a part-to-whole relationship between projects for which the goals were missed, met, or exceeded by quarter. A 100% stacked bar graph never serves as the best solution for a time series.
