Despite the perceptual problems that I identified in Cole's 100% stacked bar graph, she feels that it is superior to the line graph above. Her preference is rooted in the fact that the stacked bar graph intuitively indicates the part-to-whole nature of the relationship between missed, met, and exceeded goals.

Earthbag construction is an inexpensive method using mostly local soil to create structures which are both strong and can be quickly built.. It is a natural building technique developed from historic military bunker construction techniques and temporary flood-control dike building methods. The technique requires very basic construction materials: sturdy sacks filled with organic material ...
