

swords pdf

A sword is a bladed weapon intended for slashing or thrusting that is longer than a knife or dagger. The precise definition of the term varies with the historical epoch or the geographic region under consideration. A sword consists of a long blade attached to a hilt. The blade can be straight or curved.

Sword - Wikipedia

The term "National Treasure" has been used in Japan to denote cultural properties since 1897, although the definition and the criteria have changed since the introduction of the term. The swords and sword mountings in the list adhere to the current definition, and have been designated national treasures according to the Law for the Protection of Cultural Properties that came into effect on June ...
