In his 2008 blockbuster, *Outliers*, Malcolm Gladwell makes the case that a person's age relative to his or her cohort is a key predictor of success. That is, the older you are in relation to your peers, the more likely you are to perform at an elite level in sports, to excel in school, and even to attend college.

Electricity is the set of physical phenomena associated with the presence and motion of matter that has a property of electric charge. In early days, electricity was considered as being not related to magnetism. Later on, many experimental results and the development of Maxwell's equations indicated that both electricity and magnetism are from a single phenomenon: electromagnetism.
