Sexology is the scientific study of human sexuality, including human sexual interests, behaviors and functions. The term sexology does not generally refer to the non-scientific study of sexuality, such as political science or social criticism.. Sexologists apply tools from several academic fields, such as biology, medicine, psychology, epidemiology, sociology, and criminology.

The Paleolithic diet, Paleo diet, caveman diet, or stone-age diet is a modern fad diet requiring the sole or predominant consumption of foods presumed to have been the only foods available to or consumed by humans during the Paleolithic era.. The digestive abilities of anatomically modern humans, however, are different from those of Paleolithic humans, which undermines the diet's core premise.
